FOR IMMEDIATE RELEASE

RH Petrogas Strengthens Management Team With Key Hires

- **Mr Francis Chang has been appointed as Vice President, Exploration and Production**
- **Mr Samuel Cheong has been appointed as Vice President, Commercial**

SINGAPORE – 22 June 2010 – SGX Mainboard-listed **RH Petrogas Limited** ("RHP" or the "Group"), engaged mainly in the business of exploration, development and production of oil and gas resources, is pleased to announce that Mr Francis Chang is appointed as the Vice President, Exploration and Production and Mr Samuel Cheong as the Vice President, Commercial.

"We are delighted to welcome Francis and Samuel to our big family and are certain that the Group will stand to benefit from their knowledge and wide exposure derived from their extensive experience in the oil and gas industry."

Dr Tony Tan, Chief Executive Officer, RHP

Prior to joining RH Petrogas, Mr Chang served as a Vice President for International Operations in GNT International Inc. that is based in Beijing, China. He brings along wide network with US based major and independent oil companies throughout his over 30 years of industrial experience. Mr Chang's technical expertise in many petroleum basins in the global arena and geological experience in China over the past 7 years will be invaluable to RH Petrogas in developing their Fuyu 1 Block in China.

Mr Chang graduated with a Bachelor of Science degree in Geology from National Taiwan University and attended a graduate study programme in Geophysics at Harvard University.

Mr Cheong was a Commercial Director of Orchard Energy Pte Ltd, which is now a subsidiary of RH Petrogas, since March 2009. Before joining Orchard Energy, Mr Cheong served in various capacities ranging from business development, commercial, risk management and crude operation in Singapore Petroleum Company Limited for approximately 18 years.

Mr Cheong's involvement in many successful cases of acquisitions and joint ventures in both the upstream and downstream sectors of the oil and gas industry forms a strong portfolio that RH Petrogas can tap on to strengthen their new core business – exploration, development and production of oil and gas resources. He also led the company's asset team in managing its entire portfolio of upstream exploration and production assets. Mr Cheong graduated with a Bachelor of Business Administration degree from the National University of Singapore.

Both Mr Chang and Mr Cheong will report to the Chief Executive Officer directly.

--- End ---

ABOUT RH PETROGAS LIMITED (Bloomberg Ticker: RHP SP)

RH Petrogas Limited (RHP) is engaged in exploration, development and production of oil and gas resources. RHP's first oil and gas project is a production sharing contract with China National Petroleum Corporation to jointly develop and produce hydrocarbon resources in Block 1 of Fuyu in the Songliao Basin, Jilin Province, the PRC on an area of approximately 254.9 sq km. Apart from the China side, RHP also acquired Singapore-based Orchard Energy Pte Ltd, an oil and gas exploration and production company which holds a production sharing contract in relation to the exploration and production of petroleum in West Belida Block, Jambi, South Sumatra, Indonesia, covering an area of approximately 1,402.19 sq km.

RHP was formerly known as Tri-M Technologies (S) Limited which was incorporated in 1987 and is headquartered in Singapore. The main business focused on manufacturing high quality electronics products to the global markets. In November 2009, the name was changed to RHP in order to reflect its new core business of oil and gas exploration and production.

RHP aspires to be a leading independent oil and gas company in the region.
